SABIC GLOBAL PROCUREMENT SERVICES

Supplier Code of Conduct

Introduction from SABIC Vice President, Global Procurement Services

Dear Supplier,

At SABIC, we are committed to the highest standards of ethics and integrity in every transaction, and everywhere we do business. We are pleased that you are interested in doing business with us and we invite you to learn about our [integrity culture](#).

We are always looking to work with suppliers who share our values. We require that you operate on similar ethical principles and that you conduct your business in an economically, environmentally and socially responsible manner. SABIC's standards for our suppliers are included in this non-exhaustive global supplier code of conduct ("Supplier Code of Conduct").

The Supplier Code of Conduct applies to those parties providing products or services to SABIC. We also expect third parties that you work with to observe our standards.

Failure to follow our Supplier Code of Conduct may result in non-consideration for (future) business or in termination of an existing relationship. If you suspect a non-compliance with the Supplier Code of Conduct, please let us know via one of our [available channels](#). All suppliers have a duty to raise integrity concerns or violations promptly. We strictly prohibit retaliation of any kind against anyone for raising or helping to address an integrity concern.

You can find more information on our expectations for suppliers at our [SABIC Supplier Portal](#). If you share our values and vision, we look forward to working with you.

Supplier Code of Conduct

OVERVIEW

Our Supplier Code of Conduct applies to Suppliers and their employees, agents, subsidiaries, affiliates and subcontractors that provide goods or services to SABIC anywhere in the world. For our purposes, “Supplier” means the legal entity specified in the SABIC purchase contract / purchase order as the supplying party, including but not limited to, manufacturers, tollers, logistics providers, waste handlers, consulting firms, independent contractors, and staffing agencies.

PURPOSE

At SABIC, we conduct our business in an ethical, legal, and safe manner. We strive to be socially and environmentally responsible. SABIC requires our Suppliers to share this commitment and to abide by the principles contained in our Supplier Code of Conduct. We describe our expectations for our Suppliers in more detail below. Your work is critical and reflects on not only SABIC, but also affects our stakeholders and the communities where we operate.

Upholding the highest standards of ethical, social and sustainable conduct is what we expect from you.

PROCEDURES

As a SABIC Supplier, you must obey all applicable laws, codes and regulations including those set forth in the relevant procurement documents, including but not limited to proposals, invitations to bid, and resulting contractual and purchasing agreements. We want our Suppliers to conduct business in accordance with the highest standards of integrity. SABIC expects you will meet these requirements in each of the following areas:

- Never discuss pricing, other commercial terms, or splitting potential customers or territories with competing Suppliers.
